

THE WILLOW TIMES

The Newsletter of the Caledonia Conservancy

Fall 2022

Message from the President, Kjell Erlandsson

I will open with an existential question; who does the Conservancy belong to? To answer... It belongs to the community around us. It belongs to everyone--our sponsors, donors, supporters, and volunteers. Although Caledonia is part of the registered name, the Conservancy also belongs to people in the surrounding communities. The Conservancy conducts its affairs for the common good. Our land has public access, and everybody can enjoy it. We have plenty of space around us for rural character and natural areas. It doesn't all have to be developed. We can enjoy greenspace relief.

The Conservancy connects people to the land. To borrow from L.L. Bean, "Be an outsider." And the Conservancy connects people with people and offers a great way to get together with friends that share your values.

Horse life is a big part of the Conservancy. We have 40 miles of horse trails, some of it in partnership with neighboring private landowners, who are key to linking the different pieces of Conservancy land.

This summer, the Conservancy hosted its annual Mane Event, a treasure hunt ride around our horse trails, which attracted more than 60 horseback

riders. People came together for a fun day to ride and talk about horse adventures. A big shoutout to all the volunteers who made it happen.

Caledonia's local Equine Trail Sports group held two obstacle events, where the proceeds went to the benefit of the Conservancy. These are judged events, where you compete through a series of obstacles. These events attracted nearly 100 participants, some of which came with their horses from over 100 miles away.

We brought our School to Nature programs back on track after the nasty virus hiatus. We had more than 150 schoolchildren through the program this year. Kudos to the volunteers for giving so freely of their time.

The Conservancy acquired the Lorence Family Woods, 7 acres, which is north of Five Mile Road at the Short Road Trail Head. This acquisition was funded by a grant from the Wisconsin DNR. Everybody is welcome to hike or ride their horse there. You will find some beautiful old trees. This land connects to the UW Renak-Polak natural area, worth further exploration.

On the administrative side, we streamlined our financial affairs to reduce expenses. This is part of being good stewards of our financial resources, and in the end, respects donors, sponsors, and volunteers. A shoutout to Suzi Zierten for embracing this initiative with enthusiasm.

We also started looking at how we use signs on our trails and land, and what the signs should look like. We have a variety of signs at our properties to give information and direction. Signs we put up are part of our face to the

community, and we want them to truly represent the Conservancy aesthetics, and so to project our values and the values of our sponsors and donors.

So, all in all, it has been a good year thus far. We look forward to finishing the year with an online auction.

CC Event Calendar

CC Fall Online Auction:

November 25th through
December 4th, 2022

Trail Work Group:

On winter hiatus
(meets April to October
second Sat. of the month
8:45 AM King's Corner)

ETS Obstacle Events:

June 17, 2023
Kathryn Scheer's
Senne Farm

September 16, 2023
Libby & Kjell Erlandsson's
Scania Lochiel Farm

Mane Event Ride:

August 26, 2023
Neubauer Farm on
Short Road

Conservancy Fall Festival:

Picnic at the
Drs. Palmer Farm
Date TBD

Tails from the Trails- Stewardship Committee *by Sandy DeWalt*

I want to thank all of you that have come for a scheduled trail cleaning each month and to those that came out and worked the trails on their own. It has been busy spring to fall. The dead ash keep dying and falling on the trails. Luckily, we have volunteers that are more than willing to go out and remove them for us. We had the Mane Event ride the end of August and everyone came in saying the trails were in wonderful shape. The trails were mowed, bushes cut back, and fallen trees removed. We are so lucky to live, ride, and walk where the Conservancy has preserved the land.

We had two school groups come out and spread wood chips on the trails

at Tabor Woods. Many thanks to Racine Christian and Walden schools for bringing their students out to push wheelbarrows filled with loads of wood chips up the hills. They also worked to remove buckthorn on the trail leading to the pond.

The new 7 acre Lorence woods on the west side of the Short Road Trailhead has the first horse and hiking loop made that connects to the other trails. Vanessa Luther has been working there all summer and has a 3-year plan for installing new trails on the land. Come out and take a walk and enjoy the land that David Lorence sold to us using the Knowles- Nelson Stewardship grant.

If you enjoy our trails, either hiking or riding, please come out to help. Contact Sandy DeWalt at sdewalt@wi.rr.com and let her know you can help.

*Regular Stewardship volunteers
Jim Hooten and Wendy McCalvy*

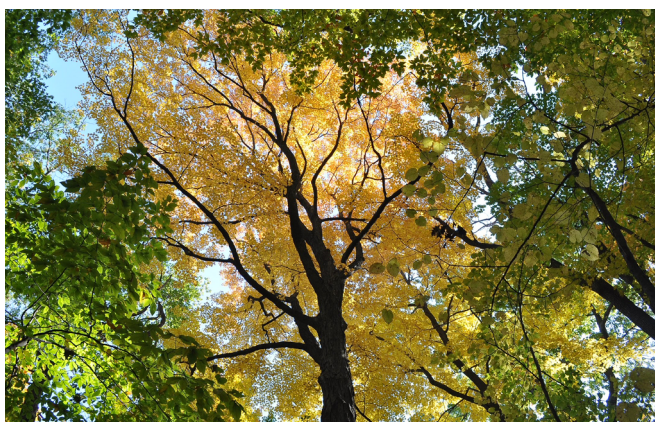

Tabor Woods from a Walden Student

My friends and I enjoyed being at Tabor Woods. We were more than happy to help the community and work with the amazing people who love to preserve nature. It was a very beautiful day as we rotated through all of the stations, whether it was raking or pushing the wheel barrels, or taking a quick nature walk. We also learned to work as a team and learn to care more about the earth and its nature. Not only that, but the people working there were kindhearted and well informed about nature and how to take care of it. The overall mood was very fun and I could tell everyone there really cared for the environment and really wanted to make a change in the world. It's cool how we have

people who love to work with nature and preserve the environment as a job. I think it is one of the most important jobs because, without nature, or wildlife, there would be no life, and this experience showed us to care more about nature and to begin showing empathy for it. I admire anybody who cares about our environment, and I wish everyone the best at Tabor Woods and other areas they are managing.

I hope they continue to strive for better every day and retain the incentive to keep our world clean and diversified.

Xavier Ortiz, 10th grade student, age 15.

Climb on the Etree

Get the scoop on local rides and activities! Look up and join the Facebook group Caledonia Etree. It reaches over 1000 neighbors to help us find lost dogs, secure new barn cat mousers or anything else local. Need a fencepost source, ask about anything horse, farm or nature related, neighbors will help answer!

2022 King's Corner Report *by Barb Hugier*

The future showcase prairie flower bed area along Hwy 31 has the weeds killed and now has winter wheat planted. When the wheat starts growing, we can add all of our showcase flower seeds.

In the same area of the showcase flower bed, Sandy DeWalt donated a Burr Oak tree which we have been watering religiously. It has a plastic donut around the tree, and under it we have been providing a home for about a half dozen baby garter snakes, and lately one blue spotted salamander. We also watered a number of baby trees planted last summer.

The Terry Tollaksen Memorial Garden was completed this year. Water had to be brought in a few times to help the new plants thrive. Wild flowers grew up all around the bushes and trees. The flowers were done blooming around the time of a lovely dedication for the memorial

garden, so they were cut down to highlight the trees and bushes planted. The Children's Learning Center had a few items removed from the prairie area into the learning center area. A butterfly garden is in the planning.

King's Corner had a visit from a Day Care group this summer. The kids had a great time out on the trails and in the Children's Learning Center. They were introduced to Jill Baranowski's

horse. There were a variety of ages and a good time was had by all, children and the CC volunteers.

Plans have been made for a prairie burning and more dead ash trees to be cut down between fall and winter. Many thanks go to Sue Ehrlich Smith for providing the funds to keep removing the dead ash and the invasives. We are hopeful to someday start replanting specific areas.

School to Nature 2022 *by Jill Baranowski*

The S2N program began in 2010 and over the years has held a spring and fall program. Sixth graders come to Tabor Woods in spring and 4th graders come to the Trout Ponds/Prairie in fall.

This fall we hosted 156- 4th graders from Olympia Brown, Red Apple, and Racine Christian schools. We had about fifty students at each field trip. The volunteers led groups of 5-7 students and followed a marked trail through the ponds, prairie, woods and down to the Root River. Along the way, they were able to measure the tall cup plants and look for insects, amphibians, and flowers. At the parking lot they used the hand held microscopes at the pond water table to see what lives in the ponds. They also visited the nature tables that had a variety of skulls, antlers, furs, bird's nest, and turtle shells on them.

The students had so much fun and really enjoyed getting out to explore everything. Seeing their excitement makes all of the work worthwhile. If you like to walk out in the woods, and enjoy seeing students out in nature,

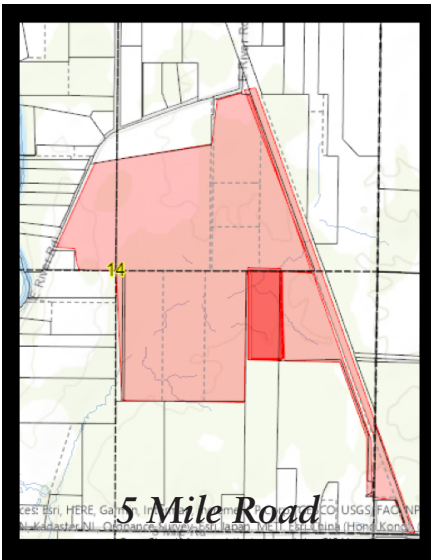

please think about being a volunteer.

Please contact Jill Baranowski chairperson at jcbaranowski@sbcglobal.net to get more information about this special program.

Behind-The-Scenes Work That Acquired the Lorence Woods *by Marla Wishau*

The Caledonia Conservancy Preservation Committee occasionally applies for State of Wisconsin Department of Natural Resource grants. It is not often that we apply for these grants, but when we have a recent land donation, we look to see if there is additional land where we can use the donation as a match property. We especially try to protect any green space on or near the Right of Way (ROW) trail in Caledonia.

The grant that we have had success with is the Knowles Nelson Stewardship Program. Since 1989, this program has been supported by the Wisconsin legislators who want to prioritize land protection, clean water and outdoor recreation for Wisconsin residents. Activities like fishing, hunting, multiuse trails, campgrounds, boat launches and conservation activities are projects the Knowles Nelson grant supports. The Urban Green Space is a subprogram of the Stewardship Program. It specifically supports open natural space within or in proximity to urban development that has scenic, ecological or natural values. This program is the one we recently had applied for.

The grant process is not simple and it is not free. Surveys and Certified Survey Maps are required, as are title searches and “Yellow Book” appraisals on both the property to purchase, and the donated properties. Because of this investment, the Preservation Committee rates the property to make sure it meets Caledonia Conservancy’s mission and objectives, as well as having a patient and willing seller. If all the stars line up, we prepare to send the pre-approval to the DNR, followed by the completed grant (which is a large amount of paperwork in itself!) for consideration. We did this with the David Lorence Property. The land we wrote a grant for and acquired is a portion of a 20-acre parcel on 5 Mile Road. The land is wooded and it is between property owned by the Conservancy and the State of Wisconsin Natural Area known as the Renak-Polak Woods. The photo shows a darker red rectangle indicating where the land is located. We initially applied in 2020, but we were not selected as a recipient of the grant. Even though our competition was stiff, we reapplied in 2021. We were successful in securing the grant. We closed on the property in June 2022. Vanessa Luther, Sandy DeWalt and the Stewardship Committee has already charted out new trails to extend into these beautiful woods.

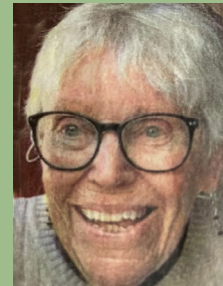

Thanks to the donation of 20 acres of woods by Robin Ehrlich Eastham and Sue Ehrlich Smith, we were able to secure the additional 7 acres of the forest that adjoin our current ROW and the Short Road Trailhead. The map shows all the preserved Lorence Woods in dark red and the Short Road Trailhead on its east side that connects to the right of way. With the Lorence Woods acquisition, the CC has now preserved over 300 acres of natural land in Caledonia.

There are hiking and horse trails on all of the land that are open to the public dawn to dusk.

“Without question, without Marla’s valued efforts and patience to the process, this could not have been completed.”

~Joseph A. Kiriaki
Preservation Committee Member

You’ve Heard from Gerry Wentorf!

Gerry Wentorf has been sending out different cards from the CC for many years now. Her son Curly Wentorf bought some and Sandy DeWalt too. Gerry used her own money for all of the stamps. She is no longer able to do it due to her handwriting. She is 95 and a beloved presence in the neighborhood. It’d be fun if anyone wants to send Gerry a surprise thank you card in care of the Conservancy or contact Sandy DeWalt sdewalt@wi.rr.com for address.

Pam Mross will now generously take over writing cards for the CC.

Signs of Our Times

Signs, signs, everywhere there's signs!! The recently established sign committee, under the direction of our President, Kjell Erlandson, is in the process of cleaning up and reducing the amount of signage throughout the CC trail system, as well as establishing new guidelines for the future. There has been some confusion as walkers and riders encounter some signs, so we are in the process of eliminating that.

Ultimately, walkers are invited to

hike throughout the walking trails on the Conservancy, except for those designated as horse trails, and horses are to stay on their designated horse trails. However, some trails are both walking and horse trails, so understand that some trails are shared. (If you encounter a horse on shared trails speak up to calm and reassure the horse until you are past. Please do NOT hide, horses are actually very fearful animals with a keen sense of smell.)

The most important thing to keep in mind is that once a trail leaves CC property, it becomes a horse trail only. Our gracious neighborhood landowners allow horses on their trails, but anyone else is considered trespassing. If you are unsure what lands the CC owns, feel free to download the maps located on our website, caledoniaconservancy.org. Happy trails!!

The October Picnic

Our first fall picnic in 3 years was held at the Deb & Ric Palmer farm on Saturday, Oct 15. It was a beautiful fall day with just a chill in the air to make everything great. Everyone enjoyed the hay rides that took you back in the fields and the woods near the barn. Children also enjoyed the bouncy house and horseback rides on Drs. Palmer's Clyde and Luczak family's Nellie. There were crafts for the kids to complete along with face painting and pumpkin painting. Items in the silent auction went to the happy highest bidder. The food was pulled pork sandwiches with all the fixings. Everyone brought a favorite dish to pass and no one went

home hungry. The two 50/50 raffles went very well with Rusty Stacey and Sue Jensen winning them. School to Nature had antlers, shells, furs, and bird nests for everyone to take a look at. The CC table sold a variety of CC merchandise. We had 22 pies that were donated and auctioned off. Fran Martin was our pie auctioneer and did a great job. Many thanks to the Palmer family for opening up their farm for us and to the picnic committee made up of Deb Palmer, Penny Griffiths, Chris Hoffman and Sandy DeWalt for doing the organizing. A pat on the back to all of the volunteers that came to make it work! Thank you all!!

Volunteer Terese Heinen helps Penny Griffith's granddaughter enjoy a swing.

Trail Emergencies *by Michelle Luczak*

Whether you're riding or walking our beautiful Caledonia Conservancy trails, emergencies can happen!! The Caledonia Conservancy Equestrian Committee recently reached out to the Caledonia Fire Department on how best to handle emergencies, especially with regard to locating someone throughout our network of trails.

We currently have a grid system with signs along the way, such as L4, which would assist emergency personnel locate someone. As many of those signs are missing or in disrepair and new trails have been added,

we wondered whether we needed additional signs or if there was a better way using current technology on our cell phones (besides, who wants more signs?!!). I reached out to Battalion Chief Leininger of the Caledonia Fire Department to see if they have a way of locating riders/walkers on our trails using cell phone locations. Caledonia did not, but he contacted Racine County Dispatch with our request, and they have now created a way to do so!! All Caledonia emergency personnel have now been notified of this solution and will be able to locate people that might be off the beaten path, provided

their cell phone location is on. So, when you're out on the trails, make sure you have your cell phone on your person and the location in the ON position (should be in your cell phone settings)!! If you need assistance in navigating how to do so, feel free to contact Michelle at michelle357357@gmail.com.

Yes, the EMT's would still probably need local rider's guidance for how to access the particular trail spot, but now they'll have a target area! Happy trails!!

Rename it Tabor Triangle? *by Libby Cameron*

It's a local tradition to get lost riding the twists and turns in our beautiful Tabor Woods. Those trails are now sporting shiny new trail marker medallions.

Members of the CC Equestrian Committee spent hours in chilly weather carefully replacing old spots of paint with these. Placed at a uniform height (where we could reach and have arm power to attach them while perched precariously on a mounting block!), and all along one side of the trail for easy rider reference (try finding trees the right distance apart!). They are on the trail side face of the trees to not be obscured by foliage. We used stainless steel nuts to space them from being flush with the tree while allowing for tree growth (Like the national Ice Age Trail does).

With approval from the new CC Signage committee and horse trail maintenance funds gifted by the local Equine Trail Sport obstacle event fundraisers (they donated \$3714.37 this year!), it was accomplished. The trails were laid out to accommodate the beautiful bigger beech, maples and others that line it. If anyone gets lost now we can add more trail jewelry (well the markers are actually pretty!) so give it a test ride and enjoy the golden glory of the seasons!

Tribute Grain Rebate

Please cut out your grain bag UPC codes and give them to Sue Jensen. Sue collects them for the CC and turns them in for a rebate. Contact Sue at Susanjensen271@gmail.com thank you. These things add up!

Midnight Michelle

by Libby Cameron

Fearless ride leader
and trail scout go getter,
She'd ride 24 seven
if only they'd let her.
When he led the Crazies
on those Sunday mornings,
King sounded his hunt horn
and neighbors took warning.

So here is a smaller one
more like a tooter,
Savannah will know
she means business to boot her!
We wish her more miles
of happy trail riding,
We're so glad Caledonia
is where she's residing!

Muscles Honor Roll

The Equestrian Committee on behalf of the Caledonia Conservancy initiated the Machinery Muscles Honor Roll.

We cannot adequately thank them, yet these tokens of great esteem and admiration were proudly presented to the following: Those who have proved themselves worthy through valuable service to the good green cause in the maintenance, construction, and magic they do for our trail network.

Without the brains and brawn brought to the table by these people we'd be swimming upstream without a paddle. Paying through the nose to rent machines (with money better spent acquiring land), and generally just worse off without their expertise and enthusiasm. If we had to put a price tag on their contributions, they would be considered some of our biggest donors.

CC MUSCLES MACHINERY

HONOR ROLL: (the award ornament they received and their title on their certificate.)

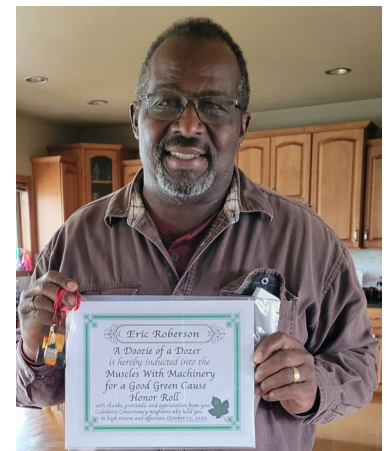

1. **Curly Wentorf-** (excavator ornament) "Excavator Extraordinaire."
2. **Joe Bauer-** (work boot) "Boots on the Ground & the Gas Pedal."
3. **Dan Muza-** (dozer & bobcat) "This bob-catalyst moves the CC forward!"
4. **Eric Roberson-** (big bulldozer) "A doozie of a dozer."
5. **Matt Johnsrud-** (chainsaw) "Jolly good fell-ow who downs trees with a single slice! ...and then plants more for the next generation!"
6. **Bill Stapleton –** (dump truck) "Keeps on truckin on the CC's behalf!"
7. **Chad Ishman-** (cook's apron) "Cooks up everything from electrifying sheds to magically making loads of gravel appear!"
8. **Greg Berg-** (cheese slice) "Known as a big cheese in Preservation."
9. **Jim Hooten-** (chainsaw) "Who does everything axed (or chainsawed) of him!"
10. **Jorge Ornellas-** (cement truck) "Cements our success!"
11. **Trevor Iglinski-** (pruning shears) "The perfect pruning pro."
12. **Chad Marek-** (tape measure) "Hard to measure up to this guy!"
13. **Steve Comeau-** (drum set) "His PA systems help us drum up support!"
14. **Wendy-** (green mower) "The merry mower with momentum!"

Secret additional category.... Mental Muscle Marvels:

1. **Marla Wishau-** (acorn oak leaf) "Grants our wishes for funding."
2. **Dr. Deb & Ric Palmer –** (palomino & cheese) "Perfect Host and Horstess!"
3. **Suzi Zierten-** (Executive Director medallion) "She is our super power!"
4. **Sandy DeWalt-** (rolling pin) "Keeps the volunteers rolling!"
5. **Michelle Luczak-** (western roses boot) "Her boots are made for riding!"

Joe Bauer with award ornament and certificate.

Eric Roberson with his certificate and ornament

Horse Style Park & Ride!

Come and check out the CC County Line Road (at the Right of Way Trail) parking area expansion! Eric Roberson has been hard at work this summer donating his time, machinery and the materials making the area wider and longer, tearing down and creating a new gorgeous gate and spreading all the gravel donated by Chad

Ishman and Gleason RediMix. Eric calculates that we should be able to accommodate 6 horse trailers double parked south to north! We are so thankful for the many people like Eric and Chad who take on these projects in the CC as a labor of love! We are blessed to have you all!! Thank you!!

Mane Event Scavenger Hunt

Navigating the notorious obstacle noodles!

A horseback scavenger hunt and obstacle course were on the agenda for the Caledonia Conservancy's 20th annual Mane Event. The trail ride was held Saturday, Aug. 27, hosted by the Neubauers at their farm located on Short Road in Caledonia. "With perfect weather, people enjoyed a fun day outside, leaving from the farm and

riding the beautiful trails on Caledonia Conservancy and private land in search of hidden scavenger hunt items," said Sandy DeWalt, event coordinator.

Sixty one riders participated and were able to spend two to three hours enjoying the trails. Raffle tickets were awarded for pictures of the items found in the scavenger hunt and put in buckets for a chance to win the prize of their choice.

After the ride, an optional obstacle course gave participants a chance to introduce their horses to a variety of creative challenges. Ribbons were given to the riders completing the course in the shortest time with the most points.

Riders came from central Wisconsin and northern Illinois as well as from the Caledonia area.

We need to thank the committee for putting on the ride. Without them, it would not have been possible. They were Jill Baranowski, Cathy Kortendick, Donna Weinatzl, Tracy

Larson, and Marcia Buhler. Mark your calendars for next year's on August 26, 2023!

Farm manager Sally Smith with farm owner Sara Neubauer (right)

Keland Sisters' Memorial Jump

Robin Ehrlich Eastham was moved by the picture of Nikki Keland in last year's calendar because it brought back good memories of jumping horses with the Keland sisters. Robin donated money to have a coop (an a-frame style) jump built, which is placed on the horse trail in the grassland section of King's Corner. There will be a plaque on each side saying In Loving Memory of the Keland Sisters: Nikki, Kristi, and Henni. Most of the riders in Caledonia at that time were western riders. The Keland and Ehrlichs were instrumental in bringing English riding and the thrill of jumping to the area. Enjoy the Keland jump and think of the ones that have come before us to make Caledonia so special.

Costume Contest Winner: Finn Addickes

Equine Trail Sport fundraiser for the Conservancy:
Finn Addickes who painted his own sword, "no its not blood it's flames!"

2023 Horses and Trails of Caledonia Calendar

Order cutoff November 20!
Don't forget to order your Caledonia calendar for next year. It shows over 100 pictures of horses in our area along with the people that love them. The price is still \$20 and you can order on line by going to www.caledoniaconservancy.org.

Pick up is planned for the first week in December. These make great gifts for the horse lovers in your lives.

Online Auction

Buy YOUR dream horse!!! Remind yourself to shop November 25 through December 4th! The auction link is: auctria.events/CC2022HolidayAuction

Jennifer Kanter is our magician when it comes to getting the goodies for you to choose from, but she needs your help to get some more awesome donations. You can please drop off donations at her house at Walk, Trot and Kanter Farm, 6335 E. River Road. Or contact

her at 414-364-6420. tyky00@yahoo.com

Personally, I'm donating an unfinished 36" x 27" tall carousel type horse for someone who'd enjoy decorating their own to match their dream horse! It's an antique reproduction so no broken parts to fix, you can dive right in to the FUN part of priming and painting it!!!

Moola & Media Volunteers Needed

•SOCIAL BUTTERFLY: Spend time on Facebook? Instagram? Other social media? Your knowledge of those could be a big help to the CC when we need to get the word out about our various activities and programs. Enjoy the beauty of painless volunteering from your computer or phone!

•SPARKLER: Have a knack for fundraising ideas? That's a constant challenge which some people dread whereas others find it a fun creative outlet. Lend us your creative spark and help the CC sparkle please.

To volunteer for anything please contact Suzi Ziersten at suzi.caledoniaconservancy@gmail.com and she'll be glad to hear from you!

•CLONE NEEDED! Of our graphic designer Zari Kunesh! Her good will combined with creative skill is responsible for the newsletters getting out in a beautiful and readable format. She is young and works in art and graphic design. If you need to look good, contact her at zkunesh@gmail.com. (Although we should probably keep her a secret so she has time to fit us in!! We love you Zari and appreciate your huge donation of time and talent in doing this.)

One mouse click
can make it happen,
Trees stay with us
and turtles snappin'.
Without your green generosity...
Caledonia will be
just a shopping spree.
When conservation saves the best,
Greenspace gives our souls a rest.
